## The Project

The Sanskrit meaning of Himalaya is "abode of snow".

Tonally, singing bowls, gong and electronics will lead you over the snow-covered peaks of the highest mountains on earth.

**Bernd-Michael Land**

**Hans-Dieter „HaDi“ Schmidt**

The mountain range, which spreads out over 2500km, through Afghanistan, Pakistan, India, China, Nepal, Bhutan and Myanmar, is the youngest and highest on earth.

First expeditions to Mount Everest were carried out in the 1920s already.

The musical voyage will pass rocky fields, snow-covered plateaus, ascend to monasteries and immerse into the summits' solitude.

The Himalaya is the symbolic home for several religions' deities.

Furthermore, Mount Kailash is the holiest of all mountains for hindus and buddhists which gives it a very particular and magical aura.

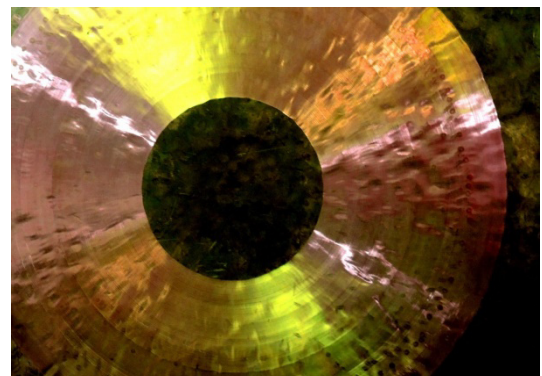

Follow us on a journey throughout meditative landscapes, where unheard sounds and expressive timbres are to be expected.
